Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

In Specification

Page 6, line 13, "output" has been changed to --input--.

In Claims

In claim 1, line 19, "output end" has been changed to --input end--.

The Examiner's amendment has been made to clarify the claimed language in order to place the application in a condition for allowance.

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach an electronic AC regulator comprising an activation circuit having at least two serially connected transistors and a bi-directional thyristor wherein the thyristor is connected to a base of the first transistor and an RC circuit, and the transistors are connected to a light tube and a pre-warning activation matching circuit in a manner as recited in claim 1. Therefore, claims 1-12 are presently allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
